I not sure I had some problem with the machine the other day and it deleted some of the saved files but I may still have my written report I will look for it.

Subject: Delaware Cemetery GPR

Hi Crystal,

It has been quite some time since we last visited. Hope everything is going well with you and your program.

We have been working on a Cemetery Preservation Program at the Delaware Tribe for the past year or so and one of our potential projects is to locate any unmarked graves that we believe are very likely present in the Delaware Cemetery north of Dewey. As I recall, you were kind enough to come over and do a GPR survey of the Delaware Cemetery for us - I believe it was in 2005 or so. I don't remember ever seeing the results, and probably couldn't make sense of them anyway if I did, but I do remembers seeing pictures of the work and know that we did get the results at one time.

Since that time, we have undergone some tremendous changes (including the loss and restoration of federal recognition) and have lost track of the results from that survey. Would you by any chance have a copy of that survey that you would be willing to share (and re-interpret) with our office?
