

Survey Map of the Delaware Cemetery

In 1979, Dr. Terry Prewitt of the University of Tulsa was doing a study of Delaware religion, and he asked if there was anything he could do to assist the Delaware Tribe. Glenn McCartlin who was head of the Delaware Cemetery Committee told him that it would be nice if there was a good map of the Delaware Cemetery northwest of Dewey. The Cemetery Committee at that time consisted of Glenn, Nora Thompson Dean, and Warren 'Judge' Longbone.

Mapping was begun by Terry Prewitt on January 16th and 17th of 1980. The work crew consisted of Glenn, David Oestreicher, and Jim Rementer. The work was continued in May, on the 14th and 21st, and Terry Prewitt was assisted by Glenn, Jim, and Suzanne Ferguson. The final map was draw by Karen Haworth.

On the map every marked grave is shown. In addition, every feature such as a mound or depression that may be a grave is also shown. On the original map even the contour lines of the cemetery were shown, but the map supplied with this document shows only the graves and possible graves.

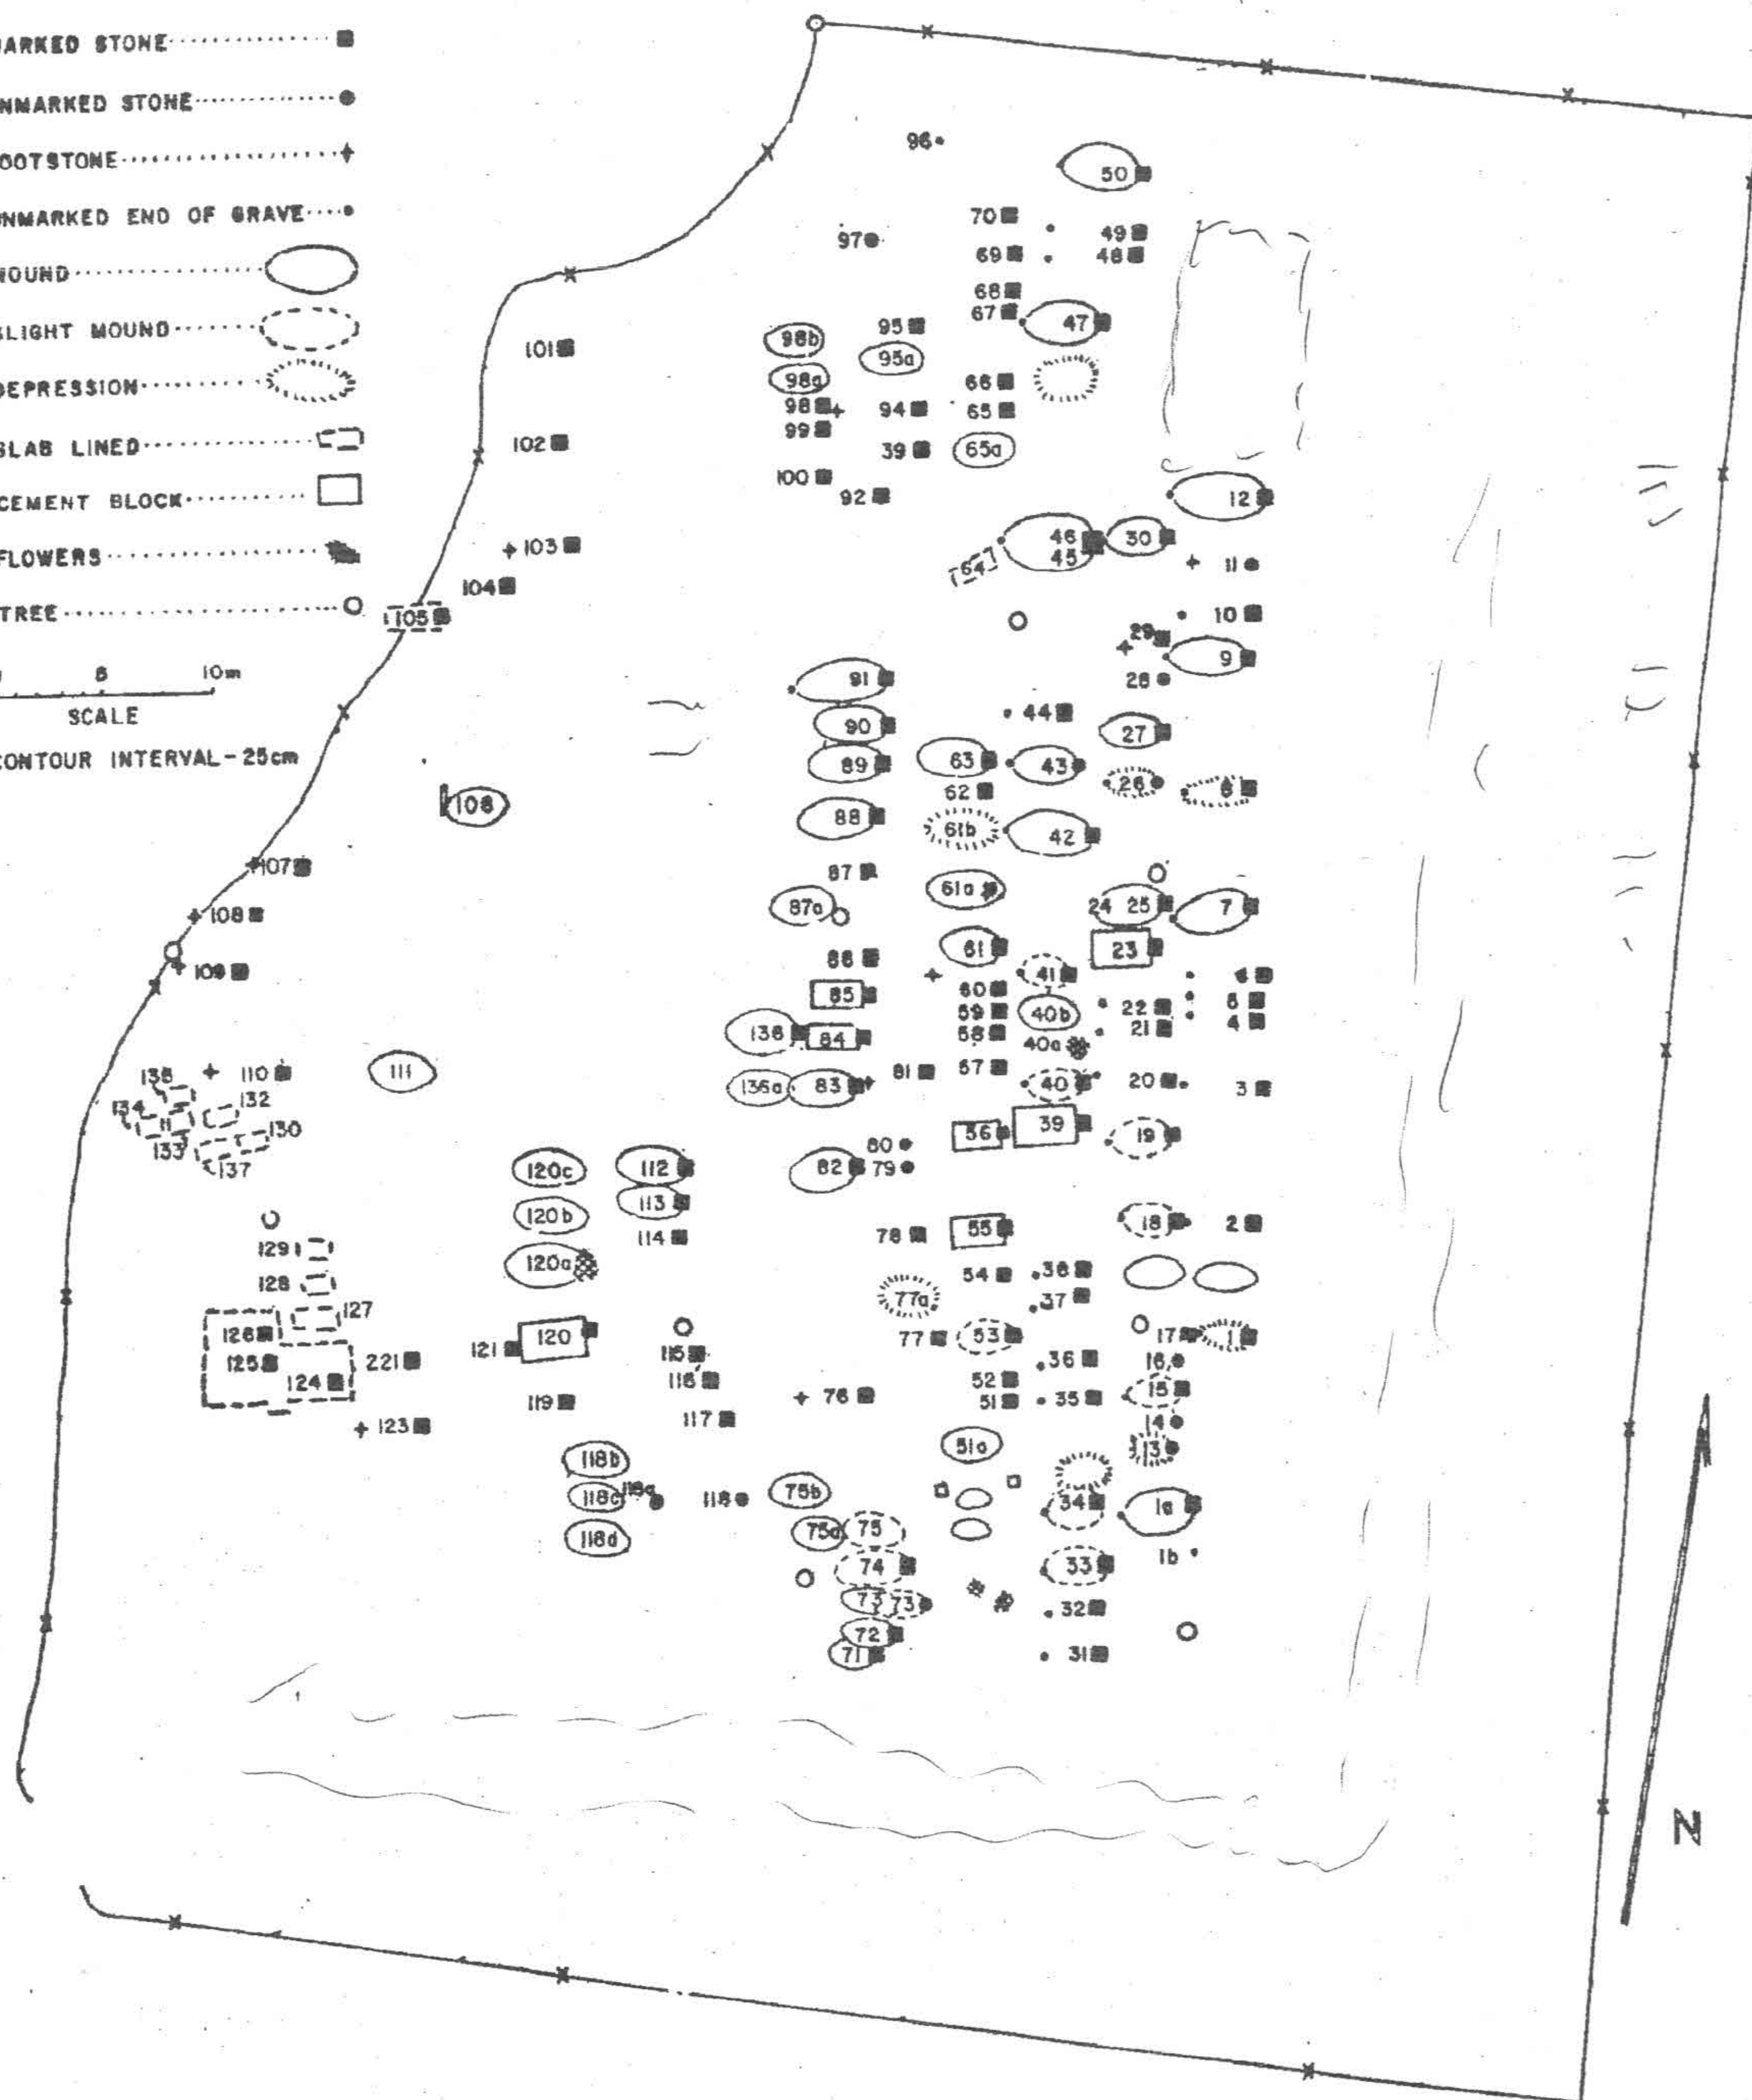

In addition to the map there is a directory of the grave numbers in numerical order, and a directory by name in alphabetical order.

There is also a veterans' directory prepared by Warren 'Judge' Longbone in 1990.

NOTES

Sam Anderson's grave has been variously shown by different people as #118b, 118c, 118d, 75a, 75b, 75c, and 1b.

Jim Nolan's grave has been shown as 97, or 98b.

Ida Nolan might be 98a.

Charley Webber might be 65a.

John Anderson might be 120a.

Curt Anderson might be 120b.

Andrew Anderson might be 120c.

SOME ADDITIONAL MEASUREMENTS MADE AT THE DELAWARE CEMETERY

by Jim Rementer, about 1987
in Spiral Notebook #1, p. 117

1. N. Falleaf to E. fence 77'6" and to N. fence 65'
2. Dalton Beaver to E. fence 75'5" (on E. fence is 158'6" from SE corner.
3. 1b - Jacob Parks 1890-1949
4. Earl Wayne Elkhair (due E. of #16), 1907-Jan. '85
5. May Brown (15'4" S. of Laura Parker & 2'6" E.), 1908-1986
6. There is a man's grave betw. Earl Elkhair & May Brown
7. Walter Longbone is 6'3" N. of Fannie, 1920-1980
8. Glenn McCartlin is 4'3" N. of Walter, 1926-1987
9. John Nelson Falleaf is 12'4" N. of Numerous, 1950-1982
10. Ann Wahnee is 7'6" N. of Jim Wahnee
11. Sonny Wahnee is 7'6" N. of Ann (Wahnee), 1934-1986
12. "Baby Boy" Wilson is 13' W. of Steve Wilson
13. Nora is 4'9" N. of Jim Buffalo
14. Branda Lynn Coffman is 11'8" E. of Nora, 1984
15. Mildred McIlroy is 5'8" N. of Jess Anderson, 1923-1986
16. Jeanette Parks is 3'2" N. of Jim Parks, 1898-1984
17. Jack K. Stout is 3'2" N. of Jeanette, 1924-1985. The markers have been placed on the west end of the graves of Jeanette & Jim Parks, and Jack Stout.
18. Marion Francis Jackson is 13' W. & 2' S. of Emma Jackson, 1926-1984.
19. Edith Parks Watters is 6' S. of Jim Parks, 1910-1/22/86

Measurements from Center of Stones

- 22'8" from Wm. Brown to JW Gibson stone
- 21'8" from Gibson to Silas Longbone
- 5'7" from Silas Longbone to George Longbone
- 36'8" from Charley Wilson to Julius Fouts

VETERANS BURIED IN THE DELAWARE INDIAN CEMETERY

Name	Location	Row	Space	War
Alonzo Beaver	109' from North Fence	1	3	1
Raymond Gordon	113' from North Fence	2	3	1

Charles Joe Hill	16' from North Fence	2	1	K
Raymond Wahnee	78' from North Fence	6	1	K
Clyde Earl Burnett	115' from North Fence x 10' from East Fence	NE	1/4	K

(The Delaware Indian Cemetery is located 2 miles north, then 1-1/4 miles west, then 1/4 mile north of Dewey, Oklahoma.)

Prepared by
Warren H. Longbone
on 28 May 1990

IMPORTANT REPAIRS NEEDED AT THE DELAWARE INDIAN CEMETERY

September 1995

1. Six loads of topsoil are needed at this time to fill in the graves and other areas to bring them up to level or to correct drainage problems. Melvin Hoppock of Ochelata has been recommended for this. His rate is \$55.00 per load, and therefore the total would be \$330.00.
2. Once the ground has been leveled, grass needs to be planted to prevent further erosion.
3. Some grading work needs to be done in the area of the road that is within the cemetery. Since the ditch on one side of this road was filled, water tends to stand on several graves on the south end of the cemetery. Charley Dean has offered to do this, and asks for any volunteers who wish to help.
4. The trash bin which was removed has been replaced with a trash barrel. An enclosure of wire also needs to be built to burn the trash at the cemetery.
5. All known graves need to have some type of marker placed on them. When it is known who is buried there the name can be added to the marker, otherwise just a plain gravestone will indicate the location of the grave. This is a project to be done sometime in the not too distant future.
6. We are still looking into the possibility of having a survey done by either Ground Penetrating Radar, or by Electric Resistivity Method to determine the exact location of the older graves. It may be possible to have this done under a grant, and we will report other information on this as it becomes available.
