

NEEDS ASSESSMENT
AIR QUALITY
DELAWARE ENVIRONMENTAL PROGRAMS

In order for the Delaware Environmental Programs to move forward in their funding of air quality for the Delaware Tribe, a survey needs to be completed by Delaware Tribal Members and return in order to better identify the existence of and possible sources of air pollution that may be of concern to the Tribe and the communities, identifying any need for and nature of further air quality work.

Please take the time to answer these questions and return to the Environmental Programs office or the Delaware Tribal Business office, or e-mail your answers to ybratton@delawaretribe.org. Your involvement will better determine the course of action the Environment Department needs to address.

	Yes	No	N/A
1. Do you own and/or use a fireplace or wood burning stove?	___	___	___
2. Do you live on an unpaved road?	___	___	___
3. Is there a lot of traffic on your road/street daily & nightly?	___	___	___
